LOCTITE® PTFE Thread Sealing Tape™

December 2006

PRODUCT DESCRIPTION

LOCTITE® PTFE Thread Sealing Tape™ provides the following product characteristics:

Technology	Polytetrafluoroethylene
Cure	Non-curing
Application	Thread sealing
Specific Benefit	● Clean and easy to use ● Provides instant sealing

LOCTITE® PTFE Thread Sealing Tape™ applications include sealing threaded plugs on engines, fuel lines, transmission pans and lines, air conditioning units, radiators, fuel tanks, vacuum lines, coolant lines, brake lines and hydraulic systems. It replaces conventional pipe joint compound and hardening sealants and can be used on all pipe materials. This product is compatible with all chemicals, acids, alkalis, solvents and gases (including oxygen). It can be used in temperature areas up to 260°C.

GENERAL INFORMATION

For safe handling information on this product, consult the Material Safety Data Sheet (MSDS).

Not for product specifications

The technical data contained herein are intended as reference only. Please contact your local quality department for assistance and recommendations on specifications for this product.

Storage

Store product in the unopened container in a dry location. Storage information may be indicated on the product container labeling.
Optimal Storage: 8 °C to 21 °C. Storage below 8 °C or greater than 28 °C can adversely affect product properties. Material removed from containers may be contaminated during use. Do not return product to the original container. Henkel Corporation cannot assume responsibility for product which has been contaminated or stored under conditions other than those previously indicated. If additional information is required, please contact your local Technical Service Center or Customer Service Representative.
